

- Task 1: Create and configure Azure AD users
- Task 2: Create Azure AD groups with assigned and dynamic membership
- Task 3: Create an Azure Active Directory (AD) tenant (Optional - lab environment issue)

The screenshot shows the Microsoft Azure portal interface. The top navigation bar includes the 'Microsoft Azure' logo and a search bar. The breadcrumb trail indicates the path: Home > Default Directory | Groups > Groups | All groups > IT system administrators. The main heading is 'IT system administrators | Members'. Below this, there are tabs for 'Direct members' and 'All members', with 'Direct members' currently selected. A search bar labeled 'Search by name' and a button 'Add filters' are present. The table below lists the members of the group.

	Name	Type
<input type="checkbox"/>	AZ az104-01a-aaduser2	User

- Task 4: Manage Azure AD guest users (Optional - lab environment issue)

The screenshot shows the Microsoft Azure portal interface. The top navigation bar includes the 'Microsoft Azure' logo and a search bar. The breadcrumb trail indicates the path: Home > Default Directory | Groups > Groups | All groups > IT Lab administrators. The main heading is 'IT Lab administrators | Members'. Below this, there are tabs for 'Direct members' and 'All members', with 'Direct members' currently selected. A search bar labeled 'Search by name' and a button 'Add filters' are present. The table below lists the members of the group.
